Open iTunes and connect the device (iPhone/iPad). Click the device button in iTunes and move to Apps.

Click Book Writer from the Apps list and the Book Writer document list will appear. Click the book file sent from Book Writer, and click 'Save to..' button to save on to the PC.

2. Using Cloud Storage Service

To use the Cloud Storage Service, users must register to the corresponding service. We recommend Dropbox(<u>https://www.dropbox.com</u>).

There are many services such as Dropbox, Google Drive, SkyDrive, and etc. Register to one of the services and add the corresponding app to the device.

Select a book from the Book List screen and tap the share button. Then select 'Send Book' and 'Open in Another App'.

Select the Cloud Storage Service App from the Export App List.

You can select the location for the file to be saved on the corresponding app. Select a location and tap the 'Save' button.

After it is saved, the book can be shared in all the devices that can use Cloud Storage Service.

Share the link of the saved book by using 'Copy Link' service to show people the book you have made. (Some services does not provide this.)

3. How to read with Mac

Open iBooks for Mac and open the downloaded book.

iBooks for Mac can be only used on OS X Mavericks (10.9) or above. Refer to 'How to read with PC' for older versions.
